

MANAGEMENT OF EUCALYPTS COOPERATIVE

COOPERATIVE REPORTS

- Report 1** (1986) S. Calderon: Early results from the nelder spacing trials.
- Report 2** (1987) P. Kampfraath: Data from the *E. regnans* regimes trial, Murupara 1982 - 1986.
- Report 3** (1987) S. Calderon and A. Gordon: Volume equations for *E. regnans* in young plantations.
- Report 4** (1988) W. Hayward: The NZFP Forests Ltd *E. regnans* growth model.
- Report 5** (1989) S. Calderon: Height growth of *E. saligna*.
- Report 6** (1990) P. Knight and P. Allen: Early results - thinning * fertiliser trial - *E. regnans*.
- Report 7** (1990) H. McKenzie: Validation of the NZFP Forests *E. regnans* growth model.
- Report 8** (1990) A. Gordon and E. Hay: A volume and taper equation for New Zealand grown *E. saligna*.
- Report 9** (1990) A. Gordon, E. Hay and P. Milne: A volume and taper equation for New Zealand grown *E. nitens*.
- Report 10** (1990) H. McKenzie: *E. nitens* nelder growth data summary and comparison with sample plot data.
- Report 11** (1991) H. McKenzie: *E. regnans* regime trial summary of growth from age 4 - 12.
- Report 12** (1991) H. McKenzie and E. Hay: Tasmanian field trip - November 1990.
- Report 13** (1991) P. Knight & P. Allen: Application of the Diagnostic and Recommendation Integrated S Hong & System (DRIS) to young plantation eucalypts in New Zealand - a preliminary evaluation based on provisional standards.
- Report 14** (1991) G. Oliver and S. Hong: Response to thinning and nitrogen fertiliser in young *E. regnans* in Kaingaroa Forest.
- Report 15** (1991) E. Hay H. McKenzie and M. Kimberley: *Eucalyptus saligna* nelder growth from age 2-9 years.
- Report 16** (1991) R. Woollons: An initial growth and yield model for *Eucalyptus saligna* SM. in New Zealand.
- Report 17** (1993) T. W. Payn, G. R. Oliver, H. M. McKenzie, I. D. Nicholas. The effect of site factors on the growth of *Eucalyptus regnans* in Kinleith Forest (Interim Report)
- Report 18** (1993) Heather McKenzie and M. O. Kimberley. *Eucalyptus regnans* Nelder growth from age 4 - 15 years.
- Report 19** (1993) Heather McKenzie and M. O. Kimberley. *Eucalyptus fastigata* Nelder growth from age 4 - 15 years.
- Report 20** (1993) A. Gordon. Using volume and taper equations developed at different breast heights.
- Report 21** (1994) T. W. Payn and G. R. Oliver. The effect of site factors on the growth of *Eucalyptus regnans* in Kinleith Forest.
- Report 22** (1995) B. Murphy. Results of *Eucalyptus regnans* model validation.
- Report 23** (1995) Heather McKenzie and Mark Kimberley. *Eucalyptus nitens* nelder growth from age 3 to 16 years.
- Report 24** (1996) C. Lundgren, A. Gordon and E. Hay. Taper equations for *Eucalyptus pilularis*, *E. globoides* and *E. muelleriana* in New Zealand.
- Report 25** (1996) H. McKenzie and M. Hong. Response to thinning and nitrogen fertiliser six years after treatment in young *Eucalyptus regnans* in Kaingaroa forest.

- Report 26** (1996) B. Murphy. Summary of research into establishment and early growth management of *Eucalyptus nitens*.
- Report 27** (1996) E. Hay and M. Kimberley. *Eucalyptus nitens* regime trial series: Growth results ages 3-5 years.
- Report 28** (1996) B. Murphy and T. Payn. Site and climatic factors and their effect on the growth of *Eucalyptus regnans*.
- Report 29** (1996) B. Murphy, T. Payn and S. Rofe. Soil A horizon development beneath *Eucalyptus regnans*.
- Report 30** (1997) C. MacLean and A. van Zyl. "Nitens": A program to predict *Eucalyptus nitens* growth in New Zealand and Tasmania.
- Report 31** (1997) B. Murphy. "Regsite": A program to assist eucalypt site evaluation.
- Report 32** (1997) H. McKenzie. *Eucalyptus regnans* pruning trial interim report: Branch size, DOS, and effect of pruning on growth.
- Report 33** (1997) C. MacLean and A. van Zyl. "Regnans": A program to predict *Eucalyptus regnans* growth in New Zealand.
- Report 36** (1997) C. MacLean and A. van Zyl. "Regnans": A program to predict *Eucalyptus regnans* growth in New Zealand - version 2.0.
- Report 37** (1997) C. MacLean and A. van Zyl. "Nitens": A program to predict *Eucalyptus nitens* growth in New Zealand and Tasmania - version 2.0.
- Report 38** (1997) C. MacLean and M. Lawrence. A nationwide *Eucalyptus regnans* growth model.
- Report 39** (1998) Arthur Vanner, Heather McKenzie, Alexandra Hawke. Damage to young *E. nitens* and *E. fastigata* following application of residual herbicides.
- Report 40** (1999) Kevin Molony. Spacing options for Tasman Forest Industries.
- Report 41** (2001) M. Budianto. New volume and taper equations for *Eucalyptus nitens*.

ANNUAL REPORTS

- 1987 First Annual Report 1987
- 1989 Second Annual Report 1988
- 1990 Third Annual Report 1989
- 1991 Fourth Annual Report 1990
- 1992 Fifth Annual Report 1991
- 1993 Sixth Annual Report 1992
- 1994 Seventh Annual Report: January 1993 - June 1994
- 1995 Eighth Annual Report: July 1994 - June 1995
- 1996 Ninth Annual Report: July 1995 - June 1996
- 1998 Biennial Annual Report: July 1996 - June 1998
