Forest Growers Research Award's 2024

Award Categories

COMMUNICATION AND SECTOR ENGAGEMENT

This award is for a researcher who has demonstrated their ability to understand industry needs and to take complex science and present it to industry in a way that it is understood, interesting and engages people.

INNOVATION THAT ENHANCES SECTOR VALUE

This award is for a researcher who has produced research outcomes that have been picked up and implemented by industry and have resulted in value being added to the sector.

SCIENCE OF INTERNATIONAL QUALITY

This is to recognise research that is forward thinking, requires new and untried approaches, encounters unforeseen difficulties that are overcome and produces research outcomes that create new knowledge and understanding that has potential to lead to step change.

RESEARCH PARTICIPATION AND IMPLEMENTATION

This award is to recognise an industry person who actively participates in research programmes, is committed to supporting industry research programmes and demonstrates positive uptake of research results.

CONTRIBUTION TO A SCIENCE TEAM

This award is for a researcher who demonstrates a commitment to team work ahead of self and supports the delivery of high quality research that results in a successful team outcome.

RECOGNISE A YOUNG SCIENTIST

Recognition of a Young Scientist who is showing early promise of a successful science career. The person needs to demonstrate passion, a willingness to engage with industry and be an excellent communicator.
